TASK

Original prompt

The plans below show a harbour in 2000 and how it looks today.

Student response

221 words · 4 paragraphs · 11 sentences

The two setups compare Porth Harbour, in its previous form and its current expansion between 2000 and the present.

Overall, the plan is to expand transportation and allow for more space for activities, such as cafés and shops.

The previous layout had a marina in the north and a fishing boat port in the south. However, these areas were relocated to the same location in the current map. Two car parks remained from the original site, but a new road was relocated along a main street to enter the car park in the south today setup. The previous map had space occupied by a castle that was converted into a hotel in the current layout. In terms of the previous map, in the south a public beach was converted into a private beach for the hotel in the new map.

The previous setup had showers and toilets in the north and these areas were introduced between both car parks in the current map. In terms of the current map, some cafés and shops were added beside the marina. A lifeboat remained in both maps, and a new road was added connecting the hotel in the current layout. In the north, a new dock for passenger ferries was added in the current map, while a public beach has remained in this location.

 Word count check

221 words — minimum for Task 1 is 150 ☒

 Typical length for a Band 7 answer: **170–200 words**

 Your answer is about 20 words longer than it needs to be. Most of the extra words come from repeating “in the current map / the previous map”. Shorter, more precise sentences will leave you time to proofread.

AI SCORE REPORT

Your estimated band,
criterion by criterion.

6.0

estimated overall band

Criterion demonstrated

Needs further improvement

IELTS criterion	Checklist	AI score
Task Achievement	✓ All key changes are reported and an overview is included ✗ Overview describes a “plan”; two changes reported inaccurately	6.0
Coherence & Cohesion	✓ Logical paragraphing: overview + two body paragraphs ✗ Heavy repetition of “map / current / previous”; “in terms of” misused	6.0
Lexical Resource	✓ Useful change verbs: converted into, remained, added ✗ Imprecise words (setups, expansion, relocated) and spelling (inter)	6.0
Grammatical Range & Accuracy	✓ Mix of simple and complex sentences, including passives ✗ Article errors and mixed tenses (was added ... has remained)	5.5

Your gap to the target band

Target **7.0** · Estimated **6.0** · Gap **1.0**

Fastest route: **Grammatical Range & Accuracy (5.5)** — fixing articles and tense consistency alone can lift this criterion. Then **Task Achievement**: an accurate, general overview is worth more than any single detail.

How to read the AI score

These scores are estimated by LingoLite AI using the four official IELTS Writing criteria. They are designed for regular practice and may differ from an examiner's score. Before your exam, use teacher correction for a more precise evaluation.

About this report

This feedback was generated instantly by LingoLite AI. It is ideal for regular practice and for spotting repeated errors early. For a line-by-line review, a voice analysis and a personal strategy from an IELTS teacher, choose teacher correction.

01

Introduction

Student paragraph

19 words · ■ language error ■ idea / accuracy issue

The two **setups compare** Porth Harbour, in its previous form and its current **expansion** between 2000 and the present.

Strengths

- ☒ Names the place (Porth Harbour) and both time points (2000 and the present).
- ☒ Paraphrases the prompt instead of copying it word for word.

Weaknesses

- ✗ **"setups compare"** – a layout cannot compare anything; the subject should be the maps. → **The two maps compare ... LR**
- ✗ **Comma** after "Porth Harbour" separates the verb from the rest of the sentence → remove it. **GRA**
- ✗ **"current expansion"** suggests growth or a future plan; the map only shows today's layout. → **its current layout LR**

AI-improved version

"The two maps illustrate how Porth Harbour has changed between 2000 and the present day."

جمع‌بندی

مقدمه کوتاه و مرتبط است و مکان و بازه‌ی زمانی را درست معرفی می‌کند. دو انتخاب واژگانی نادقیق، یعنی setups و expansion، و یک ویرگول اضافه دقت جمله را پایین آورده‌اند؛ با اصلاح این سه مورد، مقدمه کاملاً استاندارد می‌شود.

02

Overview

Student paragraph

19 words · ■ language error ■ idea / accuracy issue

Overall, **the plan is to expand** transportation and allow for more space for activities, **such as cafés and shops**.

Strengths

- ✓ The overview is clearly signalled with **Overall**.
- ✓ It correctly notices that the harbour now offers more facilities for visitors.

Weaknesses

- ✗ **"the plan is to ..."** describes a future intention, but both maps show changes that have already happened → **has been redeveloped TA**
- ✗ **Too specific:** "cafés and shops" is a detail for the body paragraphs, not for the overview. **TA**
- ✗ **Key changes missing:** the castle becoming a hotel and the marina and fishing area swapping places are the most striking changes, but neither is mentioned. **TA**
- ✗ **"expand transportation"** is vague and only partly supported by the maps (one extra dock). **LR**

PARAGRAPH-BY-PARAGRAPH FEEDBACK

💡 **Overview formula:** Overall, + place + has been redeveloped / modernised, + with 2–3 main changes (no numbers, no small details).

AI-improved version

“Overall, the harbour has been redeveloped with tourism in mind: the castle has been turned into a hotel, new leisure facilities have been added, and several existing areas have been rearranged.”

جمع‌بندی

Overview مهم‌ترین جمله‌ی Task 1 است و در معیار Task Achievement وزن زیادی دارد. در این پاراگراف به جای روند کلی از یک «برنامه‌ی آینده» صحبت شده و جزئیات جای تغییرات اصلی را گرفته‌اند. اگر دو یا سه تغییر مهم را بدون جزئیات بیاوری، این بخش به سطح Band 7 نزدیک می‌شود.

03

Body paragraph 1**Student paragraph**

102 words · ■ language error ■ idea / accuracy issue

The previous layout had a marina in the north and a fishing boat port in the south.

However, these areas were relocated to the same location in the current map. Two car parks remained from the original site, but a new road was **relocated** along a main street to **inter** the car park in the south **today setup**. **The previous map had space occupied by** a castle that was converted into a hotel in the current layout. **In terms of the previous map**, in the south a public beach was converted into a private beach for the hotel in the new map.

PARAGRAPH-BY-PARAGRAPH FEEDBACK

Strengths

- ☒ Covers important changes: the castle becoming a hotel and the public beach becoming private.
- ☒ Accurate change language in places: **converted into**, **remained**.
- ☒ Moves from 2000 to the present, which gives the paragraph a clear direction.

Weaknesses

- **✗ Inaccurate data:** the marina and the fishing boats were not moved “to the same location”; they **switched positions**. **TA**
- **✗ “a new road was relocated”** – only something that already exists can be relocated. The maps show a road **extended** towards the hotel. **LR**
- **✗ Spelling / word form:** “inter” → **enter**; “today setup” → **today’s layout**. **LR**
- **✗ “In terms of the previous map ... in the new map”** – “in terms of” means “regarding”, not “in”, and the sentence names the map twice. **CC**
- **⚠ Repetition:** “map/maps” appears 8 times and “current” 7 times in the essay. Use **in 2000, today, originally, at present**. **CC**

AI-improved version

“In 2000, the marina was located in the north of the harbour, with the fishing boats moored to its south; today, these two facilities have switched positions. Both car parks have been retained next to the main road. The most striking change is in the south-east, where the disused castle has been converted into a hotel and the public beach beside it has become a private beach for hotel guests.”

جمع‌بندی

این پاراگراف بیشتر تغییرات مهم بخش جنوبی را پوشش داده، اما یک جمله اطلاعات نقشه را اشتباه گزارش می‌کند و فعل relocated برای جاده‌ای که تازه ساخته شده منطقی نیست. در Task 1 دقت در گزارش داده‌ها مستقیماً روی نمره‌ی Task Achievement اثر دارد؛ قبل از نوشتن هر جمله، دو نقشه را کنار هم چک کن.

04

Body paragraph 2

Student paragraph

81 words · ■ language error ■ idea / accuracy issue

The previous setup had showers and toilets in the north and **these areas were introduced between both car parks** in the current map. **In terms of the current map**, some cafés and shops were added beside the marina. **A lifeboat** remained in both maps, and a new road was added **connecting the hotel** in the current layout. In the north, a new dock for passenger ferries was added in the current map, while **a public beach has remained** in this location.

Strengths

- ✓ Includes nearly all the remaining changes, so no key feature is left out.
- ✓ **while** is used well to contrast a change with a feature that stayed the same.
- ✓ Good location language: **beside the marina, between both car parks**.

Weaknesses

- ✗ **Inaccurate data**: the original shower and toilet block is still in the north; a **second** block has been added between the car parks. **TA**

PARAGRAPH-BY-PARAGRAPH FEEDBACK

- ✗ **Articles:** features already shown on the map need **the**: "A lifeboat" → **The lifeboat station**, "a public beach" → **the public beach**. **GRA**
- ✗ **Tense mix:** "was added ... has remained". Choose one pattern, e.g. present perfect for both. **GRA**
- ✗ **"connecting the hotel"** – connect needs two points → **leading to the hotel**. **LR**
- ⚠ "the current map / layout" appears in four of five sentences. **CC**

AI-improved version

"Several new facilities have also been introduced. A second shower and toilet block now stands between the two car parks, and cafés and shops have been built beside the marina. A new road leads to the hotel, while the lifeboat station has stayed in the same place. Finally, an additional dock has been constructed in the north-east, whereas the public beach to the north has remained unchanged."

جمع‌بندی

تقریباً همه‌ی تغییرات باقی‌مانده در این پاراگراف آمده‌اند و ساختار while به‌خوبی استفاده شده است. برای نمره‌ی بالاتر در Grammar سه مورد را کنترل کن: استفاده از the برای عناصری که روی نقشه مشخص‌اند، ثابت نگه‌داشتن زمان فعل‌ها، و گزارش دقیق اینکه یک امکان «جابه‌جا شده» یا «اضافه شده» است.

LANG

Language analysis

The key language and accuracy issues the AI found in your answer, each with a corrected version and a short reason.

#	You wrote	Suggested	Type · why
1	The two setups compare	The two maps compare	Vocabulary A layout cannot compare; maps and plans can.
2	Porth Harbour, in its previous form	Porth Harbour in its previous form	Punctuation No comma inside the object phrase.
3	its current expansion	its current layout	Vocabulary "Expansion" implies growth or a plan.
4	the plan is to expand	the harbour has been redeveloped	Tense & meaning The maps show completed changes, not a plan.
5	were relocated to the same location	have switched positions	Accuracy The marina and the fishing area swapped places.
6	a new road was relocated	a new road was built	Vocabulary "Relocate" = move something that already exists.
7	to inter the car park	to enter the car park	Spelling inter → enter.
8	today setup	today's layout	Word form Possessive 's is needed.
9	In terms of the previous map	In 2000 / Originally	Linking "In terms of" means "regarding".
10	A lifeboat remained	The lifeboat station remained	Articles The feature is already known from the map.
11	was added ... has remained	has been added ... has remained	Tense consistency Keep one time frame in the same sentence.

Repetition check

map / maps ×8 · current ×7 · previous ×5 · in terms of ×2

Replace some of them with time phrases: **in 2000, originally, today, now, at present, over the period.**

Useful map language for this task

- **switch positions / swap places** – The marina and the fishing area have switched positions.
- **be converted into / be turned into** – The castle has been converted into a hotel. (you used this well)
- **be retained / remain unchanged** – Both car parks have been retained.
- **be extended towards** – The road has been extended towards the hotel.
- **leisure facilities / tourist amenities** – New leisure facilities have been added.
- **be reserved for** – The beach is now reserved for hotel guests.
