TASK

Original prompt

Access to clean water is a basic human right. Therefore every home should have a water supply that is provided free of charge.

To what extent do you agree or disagree?

01

Introduction

Student paragraph

Clean water is a **basic** necessity and is a fundamental human right. Although **I claim** that **accessing** clean water without any cost can have **some negative** for people, I believe that **this matter** is beneficial for people in terms of hygiene and the economy.

نکته کلیدی

⚠ سوال به طور کامل پارافریز نشده (قسمت‌های آبی رنگ)

💡 SUGGESTION

"Since access to potable water is considered an **essential/fundamental** human right, **it is argued that** all households should receive water without payment."

✦ کلا میتونین برای سوالات Agree/Disagree از این قالب برای نوشتن مقدمه استفاده کنین:

💡 It is often argued / claimed that [PARAPHRASE]. Although/While (I admit / acknowledge / understand why) [CONSESSION], (I think / believe / would argue that) [OPINION].

فیدبک مدرس

⚠ بخش Thesis Statement ایرادات زبانی داره و به شکل زیر میتونه اصلاح بشه:

Suggested revision

“Although **providing** free access to clean water **may** have some **negative effects**, I believe **it** is beneficial, especially in terms of hygiene and the economy.”

02

Body paragraph 1

On the one hand, providing clean water for free can have ~~several~~ **some** [HEDGING] negative aspects. **Firstly**, water is a scarce resource that must be consumed/used responsibly. When individuals can use clean water without any charge, they may be irresponsible. **This situation** might contribute to overconsumption and reduce water resources around the world, especially in some countries with lack of water. **Another reason** ~~is~~ **could be** that water purification systems can be extremely expensive for governments. To maintain ~~frustrates~~ **infrastructure** and facilities, ~~the government is more likely to~~ **governments** need sufficient financial resources, ~~allowing them~~ to develop and operate ~~this infrastructure~~ **these systems**. Therefore, if clean water is ~~without any charge~~ **provided free of charge**, governments may not have enough funding and ~~may~~ **could** face significant financial pressure.

What works

- ☒ Great ideas overall; clear and well explained!

Needs work

- ⚠ The ideas could be developed more effectively: you should **first introduce each idea** clearly and then provide supporting reasoning.

First Idea

"Firstly, offering a free water supply might lead to/could encourage the overuse and waste of this precious/valuable resource." [IDEA] → "When individuals can use clean water without any charge, they may act irresponsibly." [HOW] → "This situation might lead to overconsumption and reduce water supplies around the world, especially **in countries facing water shortages**" [RESULT]

فیدبک مدرس

Second Idea: این ایده رو به درستی معرفی کردی و ایرادی نداره همونطور که میبینی تنها ایرادی که داشتی در معرفی ایده هات بوده؛ در ادامه ایده هات رو به خوبی develop کردی و توضیح دادی. حتما هم در هنگام معرفی ایده، از **Hedging** استفاده کن.

03

Body paragraph 2

On the other hand, having access to clean water **without any/at no** cost has positive effects on human life. The **primary/main** reason **(as to)** why free clean water is important **[REDUNDANT]** is that it is essential for survival, ~~helping~~ **and helps** improve public health. ~~This means that~~ **Without access to clean water**, people may be exposed to a large number of bacteria causing serious diseases, such as diarrhea and malaria. When each household has access to clean water without any cost, they can prevent diseases more effectively. **For instance**, people are able to wash their hands and vegetables regularly, reducing the spread of infections. What is more/**Moreover/Economically** **[As you have mentioned this word in your introduction, you can start this idea using this word]**, this approach can improve the quality of life for poor families. If low-income people are required to pay for clean water, they ~~may~~ **[no hedging is needed here]** have to spend a large portion of their income, creating **severe** financial pressure. When clean water is provided free of charge to every household, families can avoid economic strain and improve their standard of living by saving money.

Improved opening

💡 The topic sentence you wrote is fine, but you can improve it as follows:

"On the other hand, **it is essential** for everyone to have access to free, clean water **for several important reasons**."

What works

- ☒ Great ideas! They directly support the argument. relevant, logical, and persuasive.

Needs work

- ⚠ You need to **use stronger language** to justify your view and **avoid hedging** to make your argument **more assertive**.

04

Conclusion

In conclusion, clean water is an essential resource for humans. While I understand that **providing** [اگر این رو ننویسی جمله معنی درستی نمیده] free water may have **some** negative impacts, I **acknowledge** that this approach helps improve individuals' health and economic conditions.

نکته کلیدی

⚠ پارافریز سوال در این پاراگراف هم ایراد مشابهی رو داره که در مقدمه توضیح دادم. ولی در کل، در پاراگراف نتیجه میتونی پارافریز انجام ندی و مستقیم thesis statement بنویسی (در صورت کمبود وقت) !!! در جایی که opinion دادی مستقیم باید بگی مخالفی یا موافق؛ الان فقط گفتی کمک میکنه به سلامت و اقتصاد که ممکنه TR رو پایین بپاره.

💡 SUGGESTION

"While I understand that providing free water may have some negative impacts, I **strongly believe that this approach should be adopted, as it improves both public health and the economic well-being of families.**"

💡 اون **قسمت صورتی رنگ** هم میتونه **حذف بشه** (بودنش مشکلی ایجاد نمیکنه ولی در کل چون سوال فقط پرسیده که موافقی یا مخالف میتونی در پاراگراف **مقدمه** و **نتیجه** به دلایلت اشاره نکنی).

فیدبک مدرس

✗ کلمه‌ی **acknowledge** (و چند نمونه‌ی مشابه دیگه که برات گذاشتم) رو وقتی میتونی استفاده کنی که بخوای راجع به side مخالف صحبت کنی. یعنی قبل از اینکه نظر خودت رو بدی، میگی: "می‌فهمم یه آدم دیگه یه نظر دیگه داره، ولی نظر من اینه که"

Example

*"While I **acknowledge/understand/admit/recognize/accept** that free water can be wasted, I still think it's very important"*

CRITERIA BREAKDOWN

A clearer view of what is working and what to improve next.

6.0

overall sample band

 Criterion demonstrated
  Needs further improvement

IELTS criterion	Checklist	Indicative range
Task Response	 A clear position with relevant, well-developed ideas	5.5–6.0
	 The question is not fully paraphrased and the conclusion does not state agreement/disagreement directly	
Coherence & Cohesion	 Clear paragraphing; ideas are explained and supported well	6.0–6.5
	 Body paragraph ideas are not introduced clearly at the start	
Lexical Resource	 Good topic vocabulary (hygiene, overconsumption, purification)	6.0–6.5
	 Some word choices are redundant or misused (“as to”, “acknowledge”)	

**Grammatical
Range &
Accuracy**

A range of complex structures is used

Errors in the thesis statement and some verb forms; hedging ("may") is overused

5.5–6.0

How to read the range

The range is an indicative teacher-facing summary based on the correction notes in this sample, not an official IELTS examiner score.

Priority for the next draft

سوال رو کامل پارافریز کن، ایده‌ی هر پاراگراف بدنه رو از همون جمله‌ی اول واضح معرفی کن، از hedging بی‌مورد (مثل may) پرهیز کن تا استدلال قاطع‌تر بشه، و در نتیجه‌گیری مستقیم بگو موافقی یا مخالف.
